

## *Ecosys Canada Comes Through for Volunteer West Island!*

Volunteer West Island recently went on a search for a laptop to be used for volunteer training and recruitment presentations. We also needed the laptop to make presentations to the corporate world for funding, and for our new Employee Volunteer Recruitment Program.

One of our longtime corporate supporters gave us a reference and we contacted Ecosys Canada to see if they could help us out.

Ecosys Vice-President Bruce Hartley immediately recognized the need and value of our organization to the community and acted quickly to fulfill our request. Within a couple of days Volunteer West Island was presented with a laptop from Ecosys Canada!

Volunteer West Island would like to extend a big-time thank you to Bruce Hartley and the whole team at Ecosys Canada for their generous donation.
