Dear Participant:

RE: Certificate of Recognition Issue Date: Wednesday, April 29, 2009
COR #:20090429-1042, WCB Account No: 598484, Industry Code: 62300

It is with great pleasure that we take this opportunity on behalf of Alberta Employment and Immigration and the Alberta Construction Safety Association (ACSA) to congratulate you and your employees on the accreditation of your health and safety program.

Upon review of your standard audit document which evaluated your health and safety program, we are pleased to advise that your firm qualifies for a "Certificate of Recognition."

The certificate is valid for one year from the date of the initial audit. *At the end of the one year term, an additional satisfactory external audit is required to revalidate the certificate.*

In qualifying for the certificate, your company has:

- prepared a written health and safety plan appropriate to the needs of your staff;
- discussed injury prevention issues with your staff and invited their ongoing participation in the health and safety program;
- identified hazards and hazard controls as an ongoing process;
- developed and implemented good health and safety practices; and
- developed a review process for changes and ongoing improvements to the program.

By participating in the development and operation of the "Partnerships" program; yourselves, Alberta Employment and Immigration and the Alberta Construction Safety Association, along with the Workers' Compensation Board have begun a process which will substantially contribute toward reducing accidents, ill health and their associated costs.

Although the Certificate of Recognition is good for a one year period, you are required to submit an external audit on or before Thursday, April 29, 2010. Failure to do so will result in your certificate becoming invalid.

The audit result is commendable and confirms our feelings that the PIR program will be of benefit to your firm and the construction industry at large.

Yours truly,

Brian Thomas
Partnerships Consultant
Alberta Employment and Immigration
